## ArtMatters *presents* **AMERICAN ART – Part 3**

In the second half of the 20th century, America breaks free of its European bonds to defy convention, and then dominates the entire art world. There is an explosion of creativity on this side of the ocean. American Art grows up and demonstrates its own unique personality – innovative, and sometimes controversial. But whether you swear by it, or at it, it is always fun.

Join us for a look at how art in America evolved in the modern era, from Pop Art to Grandma Moses, how it took the seat of power with all its new directions, energy, and nerve. You can't "like" it all, but you may go home with more than you thought. Where in the world do you think it is going next?

ArtMatters is an art awareness program designed to keep individuals connected to the world and encourage a loving relationship with the visual arts. ArtMatters brings "the museum" directly into each community.
